

Tony Molele

IT Student | Aspiring Network Engineer

Motivated and detail-oriented aspiring network engineer with a strong foundation in networking technologies, certified expertise (**CCNA**), and practical experience in designing and managing network systems. Currently pursuing a career in IT with a focus on network optimization and security. Proficient at solving complex networking challenges in fast-paced, technical environments.

Work Experience

2022-04 -

2024-08

2 years

Network IT Technician

WBE(Ekurhuleni East College), Brakpan

- Designed and constructed a wired network for classrooms, enhancing connectivity for 20+ devices.
- Collaborated with educators to ensure smooth network operations during lessons.

Education

2020-12

Matric

Alafang High School - Kettlehong, Gauteng

Expected
2025-12

NCV: Information Technology & Computer Science L2 - L4

Ekurhuleni East College - Spring Campus, Gauteng

- Data Communication & Networking
- Information Technology
- Computer Engineering & Programming
- Multimedia

Certifications

2024-11

CCNA (Cisco Certified Networking Associate)

2023-08

Introduction to Cybersecurity

Personal Information

- Age : 22
- Gender : Male
- Marital Status : Single

Key Skills and Competencies

- **Networking Technologies:** Proficient in TCP/IP, DNS, VPN.
- **Network Security:** Skilled in identifying vulnerabilities and optimizing network performance.
- **Technical Expertise:** **CCNA**-certified; experienced in configuring small networks and working under tight deadlines.
- **Analytical Thinking:** Competent in diagnosing and resolving complex networking challenges.
- **Continuous Learner:** Actively participating in the **Huawei ICT Competition** (Networking Category).

Projects

Network Security Implementation

- Developed a fully secure network by implementing firewalls, VPNs, and access control lists (ACLs)
- Configured and managed VLANs to optimize network performance and security.
- Implemented firewall rules to secure the network against unauthorized access and potential threats.
- Regularly reviewed and updated firewall configurations to align with the latest security best practices.

Competitions and Achievements

- **Huawei ICT Competition 2024** (Networking Category): Represented **Ekurhuleni East College**, showcasing advanced knowledge in networking technologies.
